

Siddharth Padithaya

Lanham, MD 20706 | (240)-421-9189 | kpsid@terpmail.umd.edu | <https://www.linkedin.com/in/siddharthpadithaya/>

Objective: Information Science student with experience in IT support and programming, interested in applying technical and problem-solving skills to real-world systems and applications

EDUCATION

University of Maryland - College Park

January 2025 - Present

Bachelor of Science, Information Science

Transferred from UMBC (Fall 2023 - Fall 2024)

Scholarships: HACSI Scholarship Recipient, UPAKAR Scholarship Recipient, NFIA Scholarship Recipient, OMSE Scholar Recipient

Technical Skills

- **Programming Languages:** Python, Java, MATLAB, R, Processing, HTML
- **Tools/Software:** VS Code, GitHub, PyCharm, Eclipse, ServiceNow

EXPERIENCE

University of Maryland - Division of IT - Terrapin Tech, College Park, MD

Hardware Support Technician

December 2025 - Present

- **Advanced Technical Support:** Escalation point for General Support Technicians, resolving **10-20** advanced hardware and software tickets weekly
- **System Imaging & OS Reinstallation:** Perform OS reinstalls, system reimaging, and configuration of loaner laptops to ensure secure, reliable, and standardized deployments
- **ServiceNow Case Management:** Resolve and document advanced hardware and loaner service tickets in ServiceNow, maintaining **95%** on-time resolution
- **Customer-Focused IT Support:** Provide in-person technical assistance to **100+** customers, maintaining high standards of service and issue resolution

Adobe, College Park, MD

Adobe Student Ambassador

November 2025 - Present

- **Campus Representation:** Promoted Adobe tools and resources to students through workshops and events
- **Collaboration:** Partner with fellow ambassadors to organize and host workshops, teaching students how to use Adobe products
- **Student Liaison:** Act as a bridge between students and Adobe teams by sharing feedback and insights
- **Event Coordination:** Plan and execute campus events to increase adoption of Adobe software

University of Maryland - Division of IT - Terrapin Tech, College Park, MD

General Support Technician

July 2025 - December 2025

- **Frontline IT Support:** Diagnosed and resolved software, account, and basic hardware issues in person
- **Account and Software Assistance:** Assisted users with password resets, Microsoft 365 installations, and system access issues
- **Device Preparation & Inventory:** Sanitized, tested, and prepared loaner laptops while managing device check-in/check-out and inventory tracking
- **Operational Documentation:** Maintained accurate service records and device status updates to support efficient helpdesk operations

International Software Systems, Inc., Greenbelt, MD

Web Development Intern

May 2024 - July 2024

- **Python and Power BI:** Attended workshops and applied programming and data visualization skills to improve project outcomes
- **Web Development:** Co-developed a web-based status reporting system to improve communication and productivity for employees, project managers, and system admins
- **UI & Feature Implementation:** Implemented features for logging daily activities and setting objectives while also gaining hands-on experience in web development and user interface design
- **Agile & Project Management:** Participated in daily Scrum meetings and used Jira to track and manage project progress
- **Leadership & Communication:** Led a team of 5 interns to complete the project on time and presented outcomes to senior management, resulting in the adoption of new reporting tools

PROJECTS

Mini Twitter Application

May 2025

- Developed a fully functional social media simulation in Java with tweeting, liking, retweeting, and following features
- Designed classes using object-oriented design principles to keep the code organized and maintainable
- Implemented internal data structures to manage tweets, track followers/following, and manage user timelines
- Created a JUnit test suite to verify functionality, edge cases, and class behavior
